DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Claim 27 is currently in “withdrawn” status. It appears the claim should be cancelled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm’r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

2. Claims 1-25 and 29-40 are allowed.
3. The following is an examiner’s statement of reasons for allowance: The prior art of record does not teach or suggest the applicant’s invention as claimed in detail. As concerns claims 1, 25 and 30, “the delivering, by one or more processors, the electronic message to the destination”, the destination has been interpreted as the message’s intended final destination, some device which is different from the processors performing the delivering and saving. The step of “automatically saving...to a repository” has been interpreted in light of the specification, particularly at p. 14, lines 23-27, wherein the “automatically” is done without direct user input or manipulation. As concerns claim 31, see applicant’s remarks of August 13, 2009.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
